CAPIXYL™ TECHNOLOGY

Capixyl™ is an innovative and unique active complex produced using a combination of a biomimetic signal peptide, Acetyl Tetrapeptide-3, with red clover extract, rich in Biochanin A, designed to prevent and stop the hair loss process, stimulate hair growth and reduces inflammation in the scalp.

It has been proven to promote the Anagen "Growing" phase and reduce the telogen "Shedding" phase of the hair growth cycle.

Capixyl™是一种创新且独特的活性复合物，其使用仿生信号肽乙酰基四肽-3与富含Biochanin A的红三叶草提取物组合而成，适用于预防和阻止脱发过程，刺激毛发生长并减轻头皮上的炎症 。

已被证明可促进生长期"生长"阶段并减少休止期"脱落"阶段。
