YOU DON'T HAVE TO BE A PLUMBER TO BE OUR PARTNER

PLUMBING Bros. PB DRAINAGE & GAS

Start building a significant saleable asset, a Plumbing Bros franchise, in one of the most lucrative industries in Australia.

You don't have to be a plumber to own a plumbing business

While it may seem strange that you can own a successful plumbing business without ever having lifted a wrench, our model has been built to enable this. We're looking for motivated and ambitious individuals who want to build a business in one of the most lucrative industries in Australia.

We're sure you have questions about how this can work if you're not a plumber yourself. Like any successful business, your success will be driven by your team; you'll hire a team of plumbers, starting with your licensed nominee plumber.

All you need to do is follow the model and you'll begin scaling and building a profitable, saleable asset.

Are you in?

Who are Plumbing Bros?

We're not just your average plumbing business. Our vision is to change the (often negative) perception of plumbing. We're doing this through our dedication and passion for providing 5-star customer service in every service. We make it easy for clients to work with us and want to keep coming back.

Plumbing Bros started in Perth in 2017 and rapidly grew to become a multi-million-dollar business. Since commencing franchising in 2019, our network has grown to over $12 million in annual revenue.

We serviced over 27,000 clients last year and pride ourselves on maintaining our 5-star average rating across our entire network.

If you're ambitious and just as dedicated to customer service as we are, we want to hear from you!

Why the plumbing industry and why Plumbing Bros?

The plumbing industry is one of the most lucrative categories for small businesses in Australia. Taps never stop dripping and drains never stop blocking, the state of the economy doesn't affect maintenance plumbing.

The benefits of a Plumbing Bros franchise include:

- ★ Award winning brand
- ★ Record revenue FY 21/22 despite global pandemic and economic downturn
- ★ Unmatched support
- ★ One-on-one tailored training
- ★ Market leading systems and processes
- ★ Growth
- ★ Continuous improvement
- ★ Data driven decision making

For the right individual, the return on investment is strong. We know that our system works and makes money. We know our industry will continue to grow. If you're sure you can follow the systems and you're hungry for growth, you will succeed.
